SECOND REQUEST FOR CERTIFICATE OF CORRECTION
UNDER RULES 322 AND 323

Sir:

Patentees filed a request for a Certificate of Correction under Rules 322 and 323 in the above-captioned patent on May 2, 2006 due to errors which appear in the printed patent as a result of Patent and Trademark Office mistakes, and mistakes of a clerical, typographical, or minor character, which were not the fault of the Patent and Trademark Office. A check for \$100.00 to cover the statutory fee for such Certificate of Correction was also filed.

JUN 23 2006

Patentees have now received a Communication dated May 17, 2006, denying the request to correct errors identified in items [75] and [56]. The Communication alleges that these items were printed in accordance with the record, and therefore, being no fault on the part of the Patent and Trademark Office, it cannot issue a certificate of correction under Rule 322. Patentees respectfully disagree.

With respect to item [75], in the May 2, 2006 paper, Patentees requested that the residence of the seventh inventor as listed on the cover page of the patent be changed from “Yokohama (JP)” to --Yokosuka (JP)--. The Patent and Trademark Office records for the present case contain clear support for this correction and clearly indicate that the error on the cover page of the patent was a result of Patent and Trademark Office mistakes.

Specifically, on August 6, 2001, Patentees filed a Request for Corrected Filing Receipt, requesting that the residence of the seventh inventor on the filing receipt be changed to --Yokosuka-shi (JP)--. A copy of that Request, as printed out from the IFW of the present case, is enclosed. Consequently, the Patent and Trademark Office issued a new Bibliographic Data Sheet, making the requested change in the residence of the seventh inventor. A copy of this new Bibliographic Data Sheet, which was also printed out from the IFW of the present case, is enclosed.

Therefore, it is clear that the correction requested by Patentees has clear support on the record and that the patent was not printed in accordance with that record. In that connection, Patentees note that the suffix “-shi” mentioned in the Request for Corrected Filing Receipt is merely a formal geographical designation of “city” in Japan, which may be omitted from the listing. This is clearly evidenced by the fact that suffixes have not been printed on the patent in the residences of all other inventors (cf.

Bibliographic Data Sheet). Accordingly, issuance of a Certificate of Correction making the requested change in item [75] is requested. If deemed necessary, the correction may be made to change "Yokohama (JP)" to --Yokosuka-shi (JP)--.

With respect to item [56], in the May 2, 2006 paper, Patentees note that the error in this item resulted from a mistake of a clerical, typographical, or minor character, which was not the fault of the Patent and Trademark Office. Since Patentees, as mentioned above, requested a certificate of correction under Rule 323, as well as under 322, and submitted a check for \$100, the correction of this error was proper and should have been included in the Certificate of Correction.

In particular, the error in item [56] was a clear typographical error in the number of a Japanese patent publication. In particular, JP 3-005639 was listed as JP 30-5639 on a PTO-1449 form filed with the application on April 25, 2001. Since the publication date is 1/1991, the error is clear as "3" before the dash ("-") indicates the year of publication, and year 1991 is year "3" according to the Japanese calendar. Furthermore, this publication was originally of record in Application No. 09/219,597, from which the present case claims priority under 35 U.S.C. 120. Thus, clear proof of the correct publication number may be found by examining the record in that case.

In conclusion, for the reasons presented above, issuance of a Certificate of Correction making changes in items [75] and [56] is respectfully requested. A new Certificate of Correction form listing these two changes is attached for convenience.

Patentees' undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address given below.

Request for Certificates of Correction

Consideration has been given to your request for the issuance of a Certificate of Correction, for the above – identified patent under the provisions of CFR 1.322.

Inspection of the application for the patent reveals that item [75] [56], is printed in accordance with the record. Therefore being no fault on the Patent and Trademark Office, It has no authority to issue a certificate of correction under the provision of 1.322.

In view of the forgoing, your request in this matter, is hereby denied. However, a certificate of correction will be issued to correct the remaining error(s) noted in your request.

Future written correspondence concerning this matter should be filed and directed to Decisions & Certificates of Correction Branch.

REQUEST FOR CORRECTED FILING RECEIPT

Sir:

Applicants' attorneys have received an official Filing Receipt in the above-identified application wherein an error has been noted. The residence of the seventh inventor is incorrect and should read as follows:

-- Yokosuka-shi, JAPAN --

A copy of the Filing Receipt is attached with the proposed changes marked in red. Issuance of a Corrected Filing Receipt with the correct data is accordingly respectfully requested.

Applicants' undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should be directed to our below listed address.

Respectfully submitted,

Attorney for Applicants

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

RECEIVED
AUG 16 2001
TC 1700

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

* This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15 (b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 500 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:
